

Guus van Beek

Guus van Beek works as key expert for the European Platform for Rehabilitation and is responsible for the development, the promotion, the capacity building and the consultancy of the European Quality in Social Services programs, a quality approach and certification program for quality in the social sector.

He has his roots in teaching pedagogic, educational psychology and organizational change at the University of Applied science in the Netherlands.

As chairman of an International working group on quality in social services he has 20 year experiences of development and implementation of quality and quality management systems in social services. He has a long-standing experience in presenting the issue of quality and quality management in the social sector in plenary sessions at international conferences.

As chairman of the CEN workshop 21 he contributed to the development of the Common Quality Framework for Social Services of General Interest and was consulted for the development of the European Quality Framework for Social Services by the working group on quality of the Social Protection Committee of the European Union.
